EXTERNAL AND INTERNAL
REQUISITIONS

MDS (Stores) no longer carries blank external requisitions as requisitions are now created on the web using MY UW Page https://login.wisc.edu/?appurl=my.wisc.edu/portal

MY UW NetID

Contact Doit’s Help Desk at 608-264-HELP (4357) for assistance in getting your NetID and password for MY UW. (You will need your Staff ID number.)

Requisition Creation

To create an external requisition, go to My UW Page https://login.wisc.edu/?appurl=my.wisc.edu/portal. Select the Services Tab, then Requisition and Number Generator.

NOTE: A newer version of the External Requisition Generator was installed on February 11, 2008. Since this new version only validates funding for UW Madison departments, we suggest putting the basic information and items into the requisition generator, skipping the funding entry, printing the requisition, and hand writing the funding information on the printed copy. Another option is to enter UW Extension funding in the COMMENTS SECTION. The Vendor Number feature also points to UW Madison vendors. If you know the UW Extension vendor number, please add that number in the COMMENTS SECTION also.

The Internal Work Order will still accept UW Extension funding.

Call UW Extension Business Services at 608-265-6645 or 608-265-6787 if you have questions.
